Your Dreams Our Goal **POORNIMA** **UNIVERSITY**

Member of Association of Indian Universities & Approved by UGC (Govt. of India) under 2(f) & 12(B)

VISION

To create knowledge based society with scientific temper, team spirit and dignity of labor to face global competitive challenges.

Mission

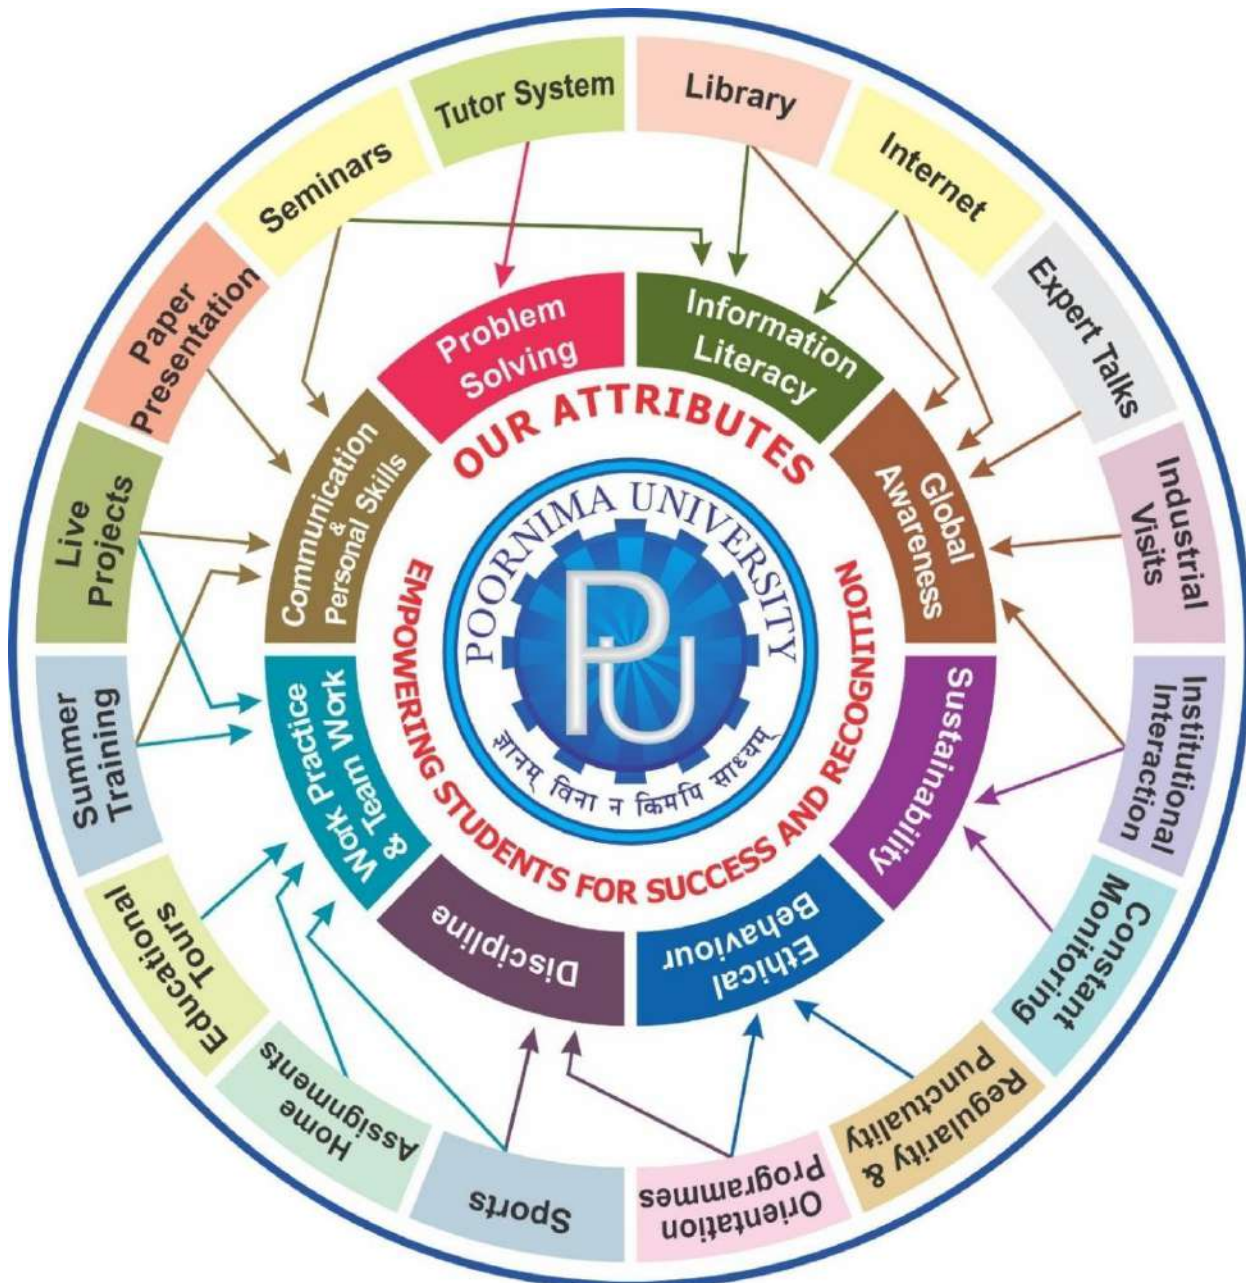

To evolve and develop skill based systems for effective delivery of knowledge so as to equip young professionals with dedication and commitment to excellence in all spheres of life.

Quality Policy

To provide Quality Education through Faculty development, updating of facilities and continual improvement meeting University norms and keeping stake holders satisfied.

Knowledge Wheel

At Poornima, the academic atmosphere is a rare blend of modern technical as well as soft skills and traditional systems of learning processes.

About Program and Program Outcomes (PO):

Title of the Programme: BBA in Startup & Family Business

Nature of the Programme: BBA is three year full-time programme.

Program Outcomes (PO):

Graduates will be able to:

1. Acquire the managerial professional attributes and be capable of decision making by applying the knowledge of management discipline.
2. Explore the entrepreneurial quality and start new business venture with innovative ideas.
3. Identify the different functional aspects of business world and recognize different opportunities of business.
4. Demonstrate a global outlook with the ability to identify aspects of the global business and cross cultural understanding.
5. Identify the problems and challenges and inculcate the capability to cope with the spontaneous changes.
6. Analyze the importance of innovation and research, tackle the contemporary needs and accordingly grab the opportunities.
7. Develop effective and oral communication especially in business applications, with the use of appropriate technology.
8. Apply ethical principles and commit to professional ethics and responsibilities and norms of the management practice.
9. Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

PROGRAM SPECIFIC OUTCOMES (PSOs)

PSO 1: Graduates will demonstrate effective entrepreneurial leadership skills in identifying, evaluating, and pursuing business opportunities.

PSO 2: Graduates will possess the ability to develop innovative business models and strategies to drive entrepreneurial ventures.

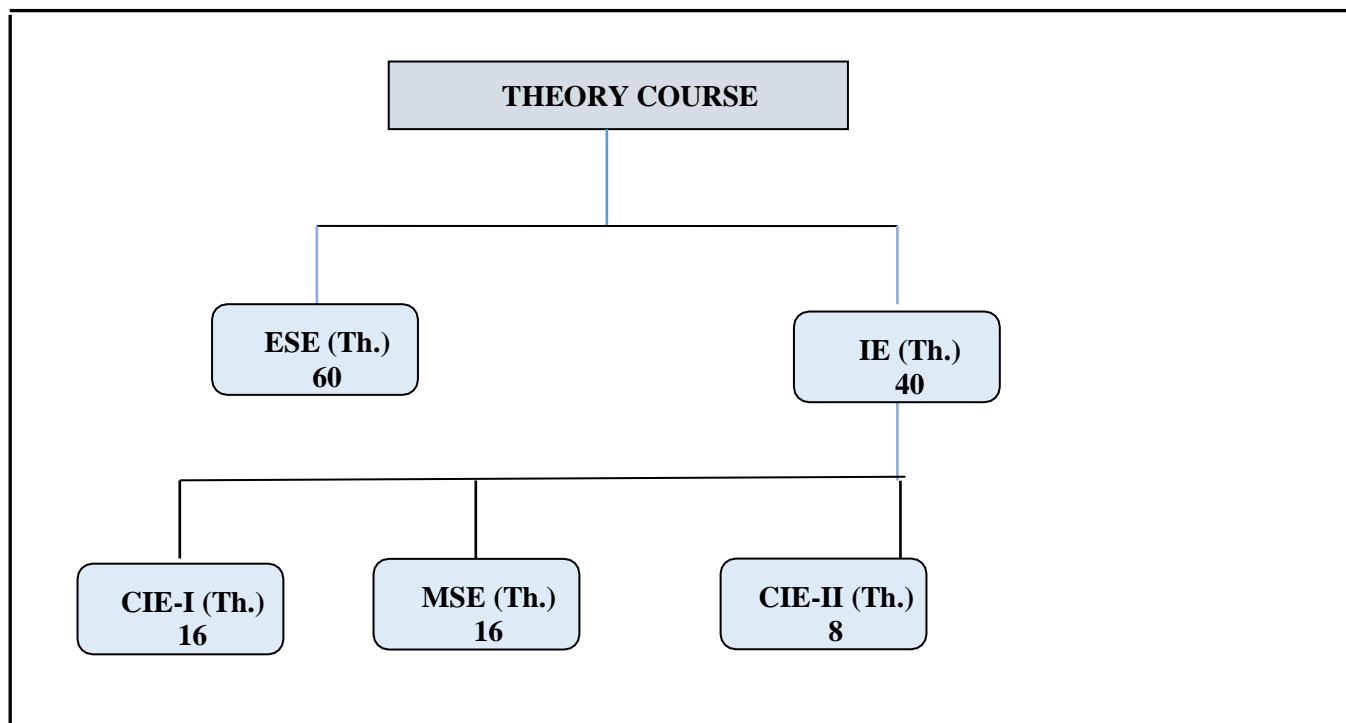

PSO 3: Graduates will exhibit proficiency in applying ethical and sustainable business practices in entrepreneurial contexts.

PSO 4: Graduates will have the ability to analyze and manage risks associated with entrepreneurial ventures.

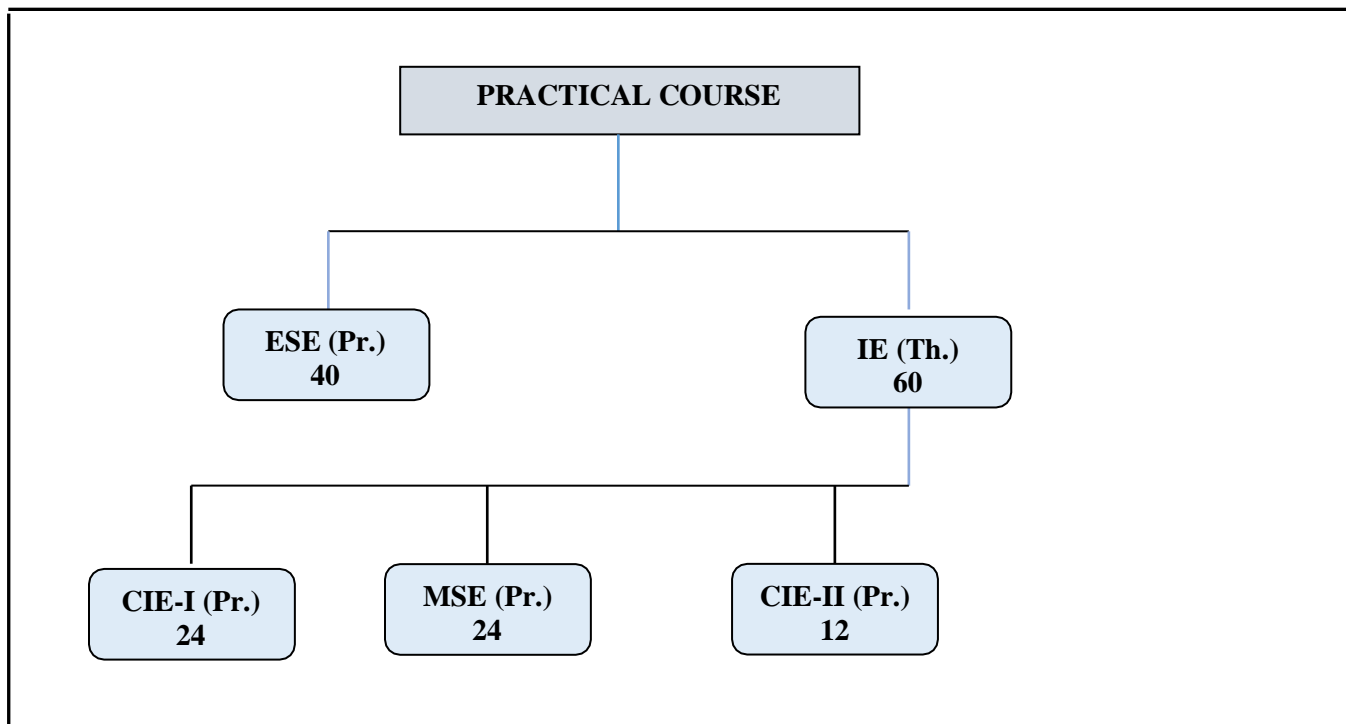

PSO 5: Graduates will demonstrate the capability to identify and engage with various stakeholders to support entrepreneurial endeavors.

Examination System:

A. Marks Distribution of Theory Course:

B. Marks Distribution of Practical Course :

Th.: Theory, **Pr.:** Practical, **ESE:** End Semester Examination, **MSE:** Mid Semester Examination, **CIE:** Continuous Internal Evaluation.

CO Wise Marks Distribution:

	Theory Subject		Practical/ Studio Subject	
	Maximum Marks	CO to be Covered	CO to be Covered	Maximum Marks
CIE-I (Class Test)	16 (8 + 8)	1 & 2	1 & 2	24 (12 + 12)
MSE	16 (8+ 8)	3 & 4	3 & 4	24 (12 + 12)
CIE-II (Activity/ Assignment)	8 (8)	5	5	12 (12)
Attendance	0	-	-	0
ESE	60	-	-	40
TOTAL	100	-	-	100

Minimum Passing Percentage in All Exams:

S No.	Program Name	Minimum Passing Percentage in		
		IE Component	ESE Component	Total Component
1	Course Work for PhD Registration	-	-	50%
2	B. Arch.	-	45%	50%
3	MBA, MCA, M.Des., M.Tech., M.Plan, MHA, MPH	-	40%	40%
4	MBA, MCA, M.Des., M.Tech., M.Plan, MHA, MPH	-	35%	35%

SGPA Calculation

$$SGPA = \frac{C_1G_1 + C_2G_2 + \dots + C_nG_n}{C_1 + C_2 + \dots + C_n}$$

$$SGPA = \frac{\sum_i C_i \times G_i}{\sum_i C_i}$$

where (as per teaching scheme & syllabus):

C_i is the number of credits of subject i ,

G_i is the Grade Point for the subject i and $i = 1$ to n ,

n = number of subjects in a course in the semester

CGPA Calculation

$$CGPA = \frac{C_1G_1 + C_2G_2 + \dots + C_nG_n}{C_1 + C_2 + \dots + C_n}$$

$$CGPA = \frac{\sum_i C_i \times G_i}{\sum_i C_i}$$

where (as per teaching scheme & syllabus):

C_i is the number of credits of subject i ,

G_i is the Grade Point for the subject i and $i = 1$ to n ,

n = number of subjects in a course of all the semesters up to which CGPA is computed

Grading Table:

Academic Perform	Grade	Grade Point	Marks Range (in %)
Outstanding	O	10	$90 \leq x \leq 100$
Excellent	A+	9	$80 \leq x < 90$
Very Good	A	8	$70 \leq x < 80$
Good	B+	7	$60 \leq x < 70$
Above Average	B	6	$50 \leq x < 60$
Fail	F	0	$x < 50$
Absent	Ab	0	Absent

Academic Performance	Grade	Grade Point	Marks Range (in %)
Outstanding	O	10	$90 \leq x \leq 100$
Excellent	A+	9	$80 \leq x < 90$
Very Good	A	8	$70 \leq x < 80$
Good	B+	7	$60 \leq x < 70$
Above Average	B	6	$50 \leq x < 60$
Average	C	5	$40 \leq x < 50$
Pass	P	4	$35 \leq x < 40$
Fail	F	0	$x < 35$
Absent	Ab	0	Absent

CGPA to percentage conversion rule:

$$\text{Equivalent \% of Marks in the Program} = \text{CGPA} * 10$$

Award of Class

CGPA	Percentage	Equivalent Division
$7.50 \leq \text{CGPA}$	75% or more	First Division with Distinction
$6.00 \leq \text{CGPA} < 7.50$	$60\% \leq x < 75\%$	First Division
$5.00 \leq \text{CGPA} < 6.00$	$50\% \leq x < 60\%$	Second Division
$4.00 \leq \text{CGPA} < 5.00$	$40\% \leq x < 50\%$	Pass Class

Guidelines for Massive Open Online Courses (MOOCs)

(Session 2023-24)

Poornima University, in its never ending endeavor to equip students with best-of-class learning and knowledge, has undertaken to include MOOC courses as part of its credit scheme from session 2023-24 onwards. The objective behind this is to enable students to study courses designed by the best teachers in the country and to scale their knowledge base with the rest of learners from the nation. The MOOCs which are included under this scheme is can be chosen from SWAYAM and NPTEL.

1. Introduction of MOOCs: SWAYAM and NPTEL

About SWAYAM:

SWAYAM is a programme initiated by Government of India and designed to achieve the three cardinal principles of Education Policy viz., access, equity and quality. The objective of this effort is to take the best teaching learning resources to all, including the most disadvantaged. SWAYAM seeks to bridge the digital divide for students who have hitherto remained untouched by the digital revolution and have not been able to join the mainstream of the knowledge economy.

This is done through a platform that facilitates hosting of all the courses, taught in classrooms to be accessed by anyone, anywhere at any time. All the courses are interactive, prepared by the best teachers in the country and are available, free of cost to any learner. However learners wanting a SWAYAM certificate should register for the final proctored exams that come at a fee and attend in-person at designated centers on specified dates. Eligibility for the certificate will be announced on the course page and learners will get certificates only if this criteria is matched.

The courses hosted on SWAYAM are in 4 quadrants – (1) video lecture, (2) specially prepared reading material that can be downloaded/printed (3) self-assessment tests through tests and quizzes and (4) an online discussion forum for clearing the doubts. Steps have been taken to enrich the learning experience by using audio-video and multi-media and state of the art pedagogy / technology.

In order to ensure that best quality content is produced and delivered, nine National Coordinators have been appointed. They are:

1. AICTE (All India Council for Technical Education) for self-paced and international courses
2. NPTEL (National Programme on Technology Enhanced Learning) for Engineering
3. UGC (University Grants Commission) for non-technical post-graduation education
4. CEC (Consortium for Educational Communication) for under-graduate education
5. NCERT (National Council of Educational Research and Training) for school education
6. NIOS (National Institute of Open Schooling) for school education
7. IGNOU (Indira Gandhi National Open University) for out-of-school students
8. IIMB (Indian Institute of Management, Bangalore) for management studies
9. NITTTR (National Institute of Technical Teachers Training and Research) for Teacher Training programme

Two types of courses are offered on SWAYAM platform: Credit Courses and Non- Credit Courses. Credit courses are offered for each semester in January and July every year. The list is available on SWAYAM official website: <https://onlinecourses.swayam2.ac.in/>

About NPTEL:

NPTEL (National Programme on Technology Enhanced Learning), is a joint venture of the IITs and IISc, funded by the Ministry of Education (MoE) Government of India, and was launched in 2003. Initially started as a project to take quality ____

education to all corners of the country, NPTEL now offers close to 600+ courses for certification every semester in about 22 disciplines.

Some highlights:

- Largest online repository in the world of courses in engineering, basic sciences and selected humanities and management subjects
- YouTube channel for NPTEL – most subscribed educational channel, 1.3 billion views and 40+ lakhs subscribers
- More than 56000 hours of video content, transcribed and subtitled
- Most accessed library of peer-reviewed educational content in the world
- Translation of more than 12000 hrs of English transcripts in regional Indian languages

NPTEL Online Certification:

The objective of enabling students obtain certificates for courses is to make students employable in the industry or pursue a suitable higher education programme. Through an online portal, 4, 8, or 12-week online courses, typically on topics relevant to students in all years of higher education along with basic core courses in sciences and humanities with exposure to relevant tools and technologies, are being offered. Enrolment to and learning from these courses is free. Following these online courses, an in-person, proctored certification exam is conducted and a certificate is provided through the participating institutions and industry, as applicable.

Some statistics regarding the open online courses since March 2014 till Dec 2021

Completed courses: 3496;

Enrollments across courses: 1.58 CRORE +

Number of exam registrations: 15.1 LAKH +

All the statistics pertaining to completed courses are available at <https://beta.nptel.ac.in/courses>. All courses are completely free to enroll and learn from. The certification exam is optional and comes at a fee of Rs 1000/course exam.

2. MOOCs at Poornima University:

MOOCs envelops best in class teaching - learning processes along with meeting the requirements of various courses in terms of quality of teaching and evaluation system. To promote the MOOCs among students of Poornima University, it is decided to consider the credits earned through MOOCs.

(a) Options for MOOCs at Poornima University

(For this document, only those MOOCs will be considered which are available on SWAYAM & NPTEL platforms)

- Credit and Non-credit SWAYAM MOOCs can be opted by anyone, anytime, anywhere and in any language. However, prior-permission of the University Authorities is mandatory if the credits are to be transferred to regular degree.
- In case of credit courses, there are two ways to opt these courses for the purpose of credit transfer to PU system as given below:

OPTION-I: As Open Elective (for batches entered till 2022) / Multidisciplinary Courses (for batches admitted from 2023-24 onwards):

Open Elective (for batches entered till 2022) / Multidisciplinary Courses (for batches admitted from 2023-24 onwards)

are available at University level in offline mode for which relevant booklets are already published. **These courses carries 02 credits.** These category/type of courses (similar/different) are also available as MOOC courses. The respective Deans / HODs shall provide both the options to all the students to either select offline courses or MOOCs as per details given below:

- Deans / HODs shall prepare a list of upto 05 appropriate MOOC courses of 02/03 credits each, well in advance (at-least 15 days prior to commencement of semester) and take approval from the Office of Dean, Academics / Pro-President, PU.
- After approval, the respective Deans / HODs shall circulate a notice to all their respective students so that they can select any one course from the list, the credits (**only 02**) of which will be counted against Open Elective/ Multidisciplinary courses pertaining to that particular semester.
- If the students are not willing to opt for MOOC Open Elective/ Multidisciplinary course, they can proceed with the current offline practice of opting for Multidisciplinary courses.
- The tutor of the class shall monitor the progress (assignments, feedback, any problem etc.) on weekly basis and report to Head/Dean.

OR

OPTION–II: As Major / Minor Courses:

- Deans / HODs shall identify a course of **03 credits** for each semester, well in advance (at-least 15 days prior to commencement of semester) and take approval from the Office of Dean, Academics / Pro-President, PU.
- After approval, the respective Deans / HODs shall circulate a notice to all their respective students citing that the particular course will be conducted through MOOCs only and is compulsory for all respective students. The credits of this course will be counted against Major/Minor courses pertaining to that particular semester.
- The tutor of the class shall monitor the progress (assignments, feedback, any problem etc.) on weekly basis and report to Head/Dean.
- This is to be noted that if Deans / HODs decide to conduct any major/minor course in any semester through MOOCs, no offline course will be conducted against that.

(b) Important points related to MOOCs at Poornima University

- Only one MOOC shall be allowed in a particular semester for the purpose of credit transfer in the beginning.
- No attendance will be taken for MOOC courses.
- Last period of T/T/S shall be taken for MOOC courses which shall be in self-study mode.
- The method of assessments of MOOC such as assignments and examination are completely associated with that particular MOOC and no exam will be conducted by the department as well as by the Examination Cell.
- The respective Dean / HOD must submit the detail of course i.e., code, name and credit of MOOC opted against that particular course in particular semester attached with highlighting in the related examination scheme of syllabus of that semester signed by BOS Convener / HoD and Dean of Faculty to the office of Pro-President before commencement of the classes.
- SWAYAM will award a certificate to all the students passing the examination along with the credit earned. The center of examination for SWAYAM MOOCs will be finalized by SWAYAM. All the responsibility related to registration for MOOCs, timely submission of assignments, examinations etc. will be borne by the students only.
- The list of registered students in MOOC along with name of course will be submitted to the Examination Cell by the Deans / HoDs before commencement of the classes.

- Any student who would not be able to register/present/clear/pass the MOOC in the stipulated time, it is the choice of the student that he or she may register in next semester (odd or even) with MOOC again or appear as a back exam candidate of the University as per PU norms.
- There will be no provision of re-evaluation of MOOC.
- The scorecard and related certificate of MOOC along with a consolidated list of students with marks of assignment and final exam will be submitted to the examination cell by the concerned Dean / HOD for further process. It is also recommended that alteration/changes/scaling in marks obtained by the students in any MOOC will not be considered.
- The exam registration fee of MOOC up to Max. INR 1000/- will be reimbursed to the student only after successful completion of the course in first attempt and submission of the fee receipt, score-card and certificate of the MOOC to the concerned department within stipulated time after declaration of the results.

NOTE: This is to be noted that the procedure for getting approval from BOS, Faculty Board, Academic Council and BoM is to be followed as per regular process.

DETAILED SYLLABUS FOR FIRST SEMESTER

Code:BBSCFR1101

IDEATION TO BUSINESS AND STARTUP ECOSYSTEM

4 Credits [LTP: 4-0-0]

COURSE OUTCOMES: After Successful completion of the course students will be able to-

CO1	Understand key concepts and frameworks of innovation and startup ecosystems Have insight into the key global trends in startup ecosystems particularly those from the global South.
CO2	Understand the role and functions of different ecosystem organisations in building and supporting growth of startups
CO3	Gain knowledge of how to develop startup ecosystem, key components and how to influence, catalyse dynamics between them and govern to drive ecosystem productivity.
CO4	Nurture, track performance and influence the course of ecosystems for productivity.
CO5	Gaining knowledge about the critical players involved, such as entrepreneurs, investors, mentors, and support organizations.

A. OUTLINE OF THE COURSE

Unit No.	Title of the unit	Time required for the Unit (Hours)
1.	Startup Ecosystem in India	9
2.	Rajasthan Startup Ecosystem	11
3.	Varieties of Startups	15
4.	Accelerators, Incubators and Mentors	15
5.	Market Research and Validation	10

B. DETAILED SYLLABUS

Unit	Unit Details
1.	Startup Ecosystem in India
	<ul style="list-style-type: none"> • Startup Policy of India - Government of India Initiatives • Top Cities in India - Bangalore, Hyderabad, Delhi, Mumbai, Ahmedabad and other cities • Funding and Investments in Indian Startups • Analysis of some key startups of India like Flipkart, Ola, Free charge and others
2.	Rajasthan Startup Ecosystem

	<ul style="list-style-type: none"> • Rajasthan Startup Policy • Key entities in the Rajasthan Startup Ecosystem - I-Start, Startup Oasis, GCEC, MNIT, Banasthali, BITS Pilani • Key entities in the Rajasthan Startup Ecosystem - I-Start, Startup Oasis, GCEC, MNIT, Banasthali, BITS Pilani • Key advantages and challenges for startups in Rajasthan
3.	Varieties of Startups
	<ul style="list-style-type: none"> • Social Startups, Impact based startups, Rural startups, social entrepreneurship, Sustainability • Aggregators, Marketplaces, listing platform, trading platforms • Media, knowledge, blogs and other influencers • Key Sectors in trend - Technology, food, education, healthcare and others
4.	Accelerators, Incubators and Mentors
	<ul style="list-style-type: none"> • Knowledge of Key Accelerators, Incubators and Mentors in India • Understanding their role and advantages and disadvantages • Support frameworks for Startups and Entrepreneurs • Key events and activities by all ecosystem players
5.	Market Research and Validation
	<ul style="list-style-type: none"> • Conducting market research to validate startup ideas • Identifying target customers and understanding their needs • Techniques for validating product-market fit

C. RECOMMENDED STUDY MATERIAL:

Sr. No	References
1.	Online articles from Your story, Inc42 and others
2.	Government of India Startup Policy
3.	DOIT, DST and Niti Ayog policy documents
4.	Open-source material online

COs AND POs MAPPING

COs and POs	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9
CO.1	2	3	3	1	3	2	0	0	1
CO.2	2	2	3	1	1	1	0	0	1
CO.3	2	3	1	1	3	2	1	1	1
CO.4	2	3	2	2	2	2	1	1	0
CO.5	1	2	3	1	2	3	1	1	0

COs AND PSOs MAPPING

COs and PSOs	PSO1	PSO2	PSO3	PSO4	PSO5
CO.1	3	2	3	3	2
CO.2	3	2	3	3	2
CO.3	3	2	2	3	2
CO.4	3	2	3	3	2
CO.5	2	1	2	2	1

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOME: After Successful completion of the course students will be able to:

CO1: Understand various asset classes and factors affecting them, the interplay between asset classes, products constituting those asset classes and their complexity and riskiness.

CO2: Enable a client to appreciate goal-based investing whereby systematic, periodical investments are made in one or multiple investment instruments as per the basic risk profile or goal specific risk capacity.

CO3: Determine various goal-based strategies and evaluate investment choices in the context of client's financial planning needs.

CO4: Determine the tax implication of the investment choices made, measure investment risk and risk-adjusted return in the strategy adopted, analyze performance of investment products and portfolios.

CO5: Recommend appropriate strategy to model a portfolio comprising varied investment products in tune with a well-established asset allocation suited to achieve the client's financial goals

OUTLINE OF THE COURSE

Unit No.	Title of the unit	Time required for the Unit (Hours)
1.	Investment Products Universe and their Applications	08
2.	Risk profiling of products and investors- Asset Allocation Determination	10
3.	Goal-based Investment Planning,	15
4.	Measuring and Managing Risks, Analysis of Return	12
5.	Regulatory Aspects- Investment Products and Investment Advisory	15

A. DETAILED SYLLABUS

Unit	Unit Details
1.	Investment Products Universe and their Applications
	<ul style="list-style-type: none"> • Fixed Income Instruments • Mutual Fund Products • Equity Market • Derivatives and Commodities • Foreign Exchange Market • Real Estate and other Investments
2.	Risk profiling of products and investors- Asset Allocation Determination

	<ul style="list-style-type: none"> • Types of Investment Risks • Risk Profiling of Investors • Asset Allocation- Financial Assets • Types of Asset Allocation Strategies
3.	<ul style="list-style-type: none"> • Goal-based Investment Planning,
	<ul style="list-style-type: none"> • Investment Planning to achieve Financial Goals • Diversification Strategies
4.	<ul style="list-style-type: none"> • Measuring and Managing Risks, Analysis of Return
	<ul style="list-style-type: none"> • Measuring Risk • Analysis of Returns • Investment Strategies and Portfolio Management • Passive Investment Strategies
5	<ul style="list-style-type: none"> • Regulatory Aspects- Investment Products and Investment Advisory
	<ul style="list-style-type: none"> • Regulatory Oversight of Financial Products and Services • Other Entities Facilitating Market Play and Intermediation

B. RECOMMENDED STUDY MATERIAL:

COs AND POs MAPPING

COs and POs	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9
CO.1	2	1	2	1	1	2	2	2	2
CO.2	3	1	3	0	1	3	1	3	3
CO.3	3	2	3	3	2	3	1	3	2
CO.4	1	3	1	2	1	1	3	1	2
CO.5	3	3	3	2	2	2	2	2	3

COs AND PSOs MAPPING

COs and PSOs	PSO1	PSO2	PSO3	PSO4	PSO5
CO.1	2	2	1	0	2
CO.2	2	3	0	0	2
CO.3	3	3	1	1	2
CO.4	1	1	1	1	1
CO.5	2	3	2	2	2

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOMES: After Successful completion of the course students will be able to-

CO1	Understand what characterizes an attractive business opportunity and common pitfalls during the entrepreneurial process.
CO2	Detect weaknesses and strengths within a business opportunity and give suggestions of how to improve these weaknesses and utilize these strengths.
CO3	Define, identify and apply the knowledge of new venture financing and growth financing and gain an understanding of the financial aspects in any venture
CO4	Learn to evaluate business performance using financial measures, such as Unit Item Profitability
CO5	Comprehend business operating cycles and how to evaluate purchasing decisions. Raise capital by offering shareholding.

A. OUTLINE OF THE COURSE

Unit No.	Title of the unit	Time required for the Unit (Hours)
1	Introduction	10
2	Startup Finances	15
3	Unit Economics	15
4	Forecasting Key Balance Sheet Terms	10
5	Valuation	10

B. DETAILED SYLLABUS

Unit	Unit Details
1.	Introduction
	<ul style="list-style-type: none"> Why value a company Company valuation – Theoretical framework The investor's perspective What drives a firm's value? <p>Forecasting key P&L Terms</p> <ul style="list-style-type: none"> Modeling the top line of the financial model Modeling other items: Other revenues and Cogs Modeling other items: Operating expenses and D&A Modeling other items: Interest expenses, Extraordinary Items and Taxes
2.	Startup Finances
	<ul style="list-style-type: none"> Financial challenges faced by startups Setting financial goals and objectives Developing a financial plan Creating financial projections and forecasts
3.	Unit Economics
	<ul style="list-style-type: none"> Asset based Valuation Market based Valuation Cash Flow based method <p>Analysis</p> <ul style="list-style-type: none"> Excel tools in practice - sensitivity analysis for WACC and perpetuity growth Recap of the financial model with charts and hypothesis testing Graphs and Charts Peer comparison and Report Creation
4.	Forecasting Key Balance Sheet Terms
	<ul style="list-style-type: none"> How to forecast balance sheet items - The practical and easy to understand way Learn how to calculate "Days"

	<ul style="list-style-type: none"> How to use "Days" in order to project the future development of some BS items Forecasting Property, plant & equipment, other assets and other liabilities <p>Output Sheets</p> <ul style="list-style-type: none"> Excel best practices! Create a good-looking and clean output sheet in your model Populating the P&L sheet Completing the Output BS Sheet For the Historical Period
5.	Valuation
	<ul style="list-style-type: none"> Asset based Valuation Market based Valuation Cash Flow based method <p>Analysis</p> <ul style="list-style-type: none"> Excel tools in practice - sensitivity analysis for WACC and perpetuity growth Recap of the financial model with charts and hypothesis testing Graphs and Charts Peer comparison and Report Creation

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOMES: After Successful completion of the course students will be able-

CO1	Understand the principles and concepts of lean startups
CO2	Apply lean startup principles to HR practices
CO3	Implement lean marketing strategies
CO4	Streamline operational processes using lean methodologies
CO5	Collaborate effectively in lean startup environments

A. OUTLINE OF THE COURSE

Unit No.	Title of the unit	Time required for the Unit (Hours)
1.	Introduction to HRM Framework	6
2.	HR Procurement: Recruitment, Selection & Career Planning	6
3.	Core Marketing	6
4.	Product Marketing	6
5.	Entrepreneurial thought and action (ETA) developed by Babson college	6

B. DETAILED SYLLABUS

Unit	Unit Details
1.	Introduction to HRM Framework
	<ul style="list-style-type: none"> • Nature & Scope of HRM • HRM Policies: Functions and Objectives • Evolution of HR in a Startup • Need for Separate HR Function in a Startup • HR & Legal Functions' Issues in a Startup – Shareholders Agreement & Dispute Settlement Mechanism
2.	HR Procurement: Recruitment, Selection & Career Planning
	<ul style="list-style-type: none"> • Human Resource Planning – Team Building with Limited Resources • Designing Appealing & Challenging Job Descriptions • Role Allocation & Rotation Policy for Key Talent • Recruitment: Planning & Execution with weaker Brand Value & Budget Constraints • Selection Procedure & Career Planning
3.	Core Marketing
	<ul style="list-style-type: none"> • Environmental Scanning (External and Internal), • Analyzing Consumer Behavior, • Buying Decision Process, • Analyzing Organizational Buying Behavior, • Analyzing Competition Marketing Information • System including basics of Marketing Research Levels of Marketing Planning. Generic Strategies and Value Chain Segmentation, • Targeting and Positioning, • Ethical Issues in Marketing
4.	Product Marketing
	<ul style="list-style-type: none"> • Developing products - Classification, Product Levels, Product Classification, Product Life Cycle, • Product Line and Mix, Packaging and Labeling, Product Quality, Concept and Role of Branding

	<ul style="list-style-type: none"> ● Pricing Decisions - Pricing Process, Methods, E - Pricing ● Delivering Product – Marketing Channels, Retailing and Wholesaling, Logistics, E- Distribution
5.	Entrepreneurial thought and action (ETA)
	<ul style="list-style-type: none"> ● An overview of the entrepreneurship method that will enable you to create, identify, assess, shape, and act on opportunities in a variety of contexts and organizations. ● Evaluating the entrepreneurial Mindset and how does it differ from a normal mindset.

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOMES: After Successful completion of the course students will be able

CO-1	Understand principles and practices in digital content creation and management
CO2	Analyze and create digital content for diverse platforms and audiences
CO-3	Identify relevant digital media content to apply in contemporary and cross-cultural media environments
CO-4	Apply relevant frameworks to create narratives and digital images for identified target customers
CO-5	Describe and explain the meaning and nature of social marketing

A. OUTLINE OF THE COURSE

Unit No.	Title of the unit	Time required for the Unit (Hours)
1.	Content Marketing Concepts and Strategy	6
2.	Developing a Content Marketing Plan	6
3.	Using Content Research to Find Opportunities	6
4.	Online platforms for content sharing	6
5.	Creating & Curating Content	6

B. DETAILED SYLLABUS

Unit	Unit Details
1.	Content Marketing Concepts and Strategy
	1) Benefits of Content Marketing 2) Qualities of Effective Content 3) Types of Content 4) Content Alignment with the Buyer's Journey 5) Community Management 6) Content Marketing Strategy
2.	Developing a Content Marketing Plan
	1) Content Marketing Goals 2) Content/Business Goal Alignment 3) Customer Personas 4) Content Topics 5) Content Calendar 6) Content Management Systems
3.	Using Content Research to Find Opportunities
	1) Website Hosting Options 2) Social Listening 3) Competitor Content Analysis 4) Content Audit
4.	Online platforms for content sharing
	1) YouTube 2) Facebook & Instagram 3) Google 4) Blogging platforms 5) LinkedIn 6) Online marketplaces like amazon, flipkart etc.

5.	Creating and Curating Content & Publishing and Distributing Content
	1) Content Stakeholders 2) Content Types and Formats 3) Content Tools 4) Content Creation and Curation 5) Content Creation Best Practice 6) Brand Components 7) Content Personalization 8) Content Platforms 9) Benefits and Challenges of Content Seeding 10) Content Scheduling Techniques and Tools 11) Content Promotion Strategies

CO.5	1	1	0	0	1

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOMES:

The student would be able to:

- C01: Understand fundamental concepts and theories in linguistics.
 C02: Apply various analytical tools and methods to investigate linguistic phenomena.
 C03: Develop critical thinking and analytical skills for linguistic analysis
 C04: Conduct independent research projects related to linguistics.
 C05: Demonstrate effective oral and written communication skills in the field of linguistics.

OUTLINE OF THE COURSE

Unit No.	Title of the Unit	Time Required for the Unit (Hours)
1	Listening & Speaking Skills	7
2	Reading & Writing Skills	6
3	Grammar & Vocabulary	6
4	Language Practice Activities	7
5	Assessment & Progress tracking	4

A. DETAILED SYLLABUS

Unit	Title of the Unit
1.	Listening & Speaking Skills
	<ul style="list-style-type: none"> • Introduction to effective listening skills • Practice in understanding different accents and speech patterns • Listening to audio recordings and answering comprehension questions • Dictation exercises to improve listening accuracy • Listening to conversations and dialogues for everyday situations • Developing fluency and accuracy in spoken English • Conversational activities to improve speaking confidence • Role-plays and simulations of real-life situations • Group discussions and debates on various topics • Pronunciation exercises and drills
2.	Reading & Writing Skills
	<ul style="list-style-type: none"> • Enhancing reading comprehension abilities • Skimming and scanning techniques for efficient reading • Vocabulary building exercises through reading texts • Reading and analyzing different genres of texts (fiction, non-fiction, articles) • Reading and interpreting graphs, charts, and diagrams and developing writing skills for different purposes (formal, informal, academic) • Sentence structure and paragraph development • Grammar exercises and error correction activities • Essay writing on various topics • Letter and email writing practice
3.	Grammar & Vocabulary
	<ul style="list-style-type: none"> • Review and practice of essential grammar rules • Vocabulary building activities and word games • Contextual usage of words and phrases • Sentence construction and transformation exercises • Grammar quizzes and interactive exercises

4.	Language Practice Activities
	<ul style="list-style-type: none"> • Language games and puzzles for fun and engagement • Language drills for quick recall of vocabulary and grammar concepts • Language-based quizzes and competitions • Language immersion activities (watching movies, listening to songs, etc.) • Collaborative projects and presentations in English
5.	Assessment & Progress tracking
	<ul style="list-style-type: none"> • Regular assessments to evaluate students' language skills • Feedback and constructive suggestions for improvement • Individual and group performance tracking • Setting language learning goals and monitoring progress • Final project or presentation to demonstrate overall language proficiency

COs and PSOs	PSO1	PSO2	PSO3	PSO4	PSO5
CO.1	1	2	1	2	1
CO.2	1	2	1	0	0
CO.3	1	2	2	1	1
CO.4	1	1	3	2	0
CO.5	2	1	2	0	1

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOMES:

The student would be able to:

C01: Gain a comprehensive understanding of the underlying concepts, principles, and components of blockchain technology, including decentralized networks, cryptographic techniques, consensus algorithms, and smart contracts.

C02: identify and analyze various real-world use cases where blockchain technology can be applied to enhance transparency, security, and efficiency in different industries and sectors.

C03: acquire the skills to design, develop, and implement blockchain-based applications and systems, including the ability to select appropriate platforms and frameworks.

C04: learn to assess the security risks and privacy implications associated with blockchain networks and explore methods to mitigate potential vulnerabilities.

C05: insights into the legal and regulatory challenges related to blockchain technology, enabling students to understand the compliance requirements and navigate the legal landscape.

A. OUTLINE OF THE COURSE

Unit No.	Title of the Unit	Time Required for the Unit (Hours)
1	Introduction to Blockchain and Cryptography and Security	7
2	Blockchain Architecture and Blockchain Development	6
3	Blockchain Use Cases	6
4	Blockchain Adoption and Governance	7
5	Case Studies and Practical Exercises	4

B. DETAILED SYLLABUS

Unit	Title of the Unit
1.	Introduction to Blockchain and Cryptography and Security
	<ul style="list-style-type: none"> • What is blockchain technology? • Brief history and evolution of blockchain • Core principles of blockchain • Advantages and challenges of blockchain • Cryptographic primitives in blockchain • Hash functions, digital signatures, and public-key cryptography • Understanding blockchain security and consensus mechanisms • Attacks on blockchain systems and countermeasures
2.	Blockchain Architecture and Blockchain Development
	<ul style="list-style-type: none"> • Types of blockchains: public, private, and consortium • Distributed ledger technology (DLT) and its components • Smart contracts and their role in blockchain ecosystems • Blockchain platforms and frameworks (e.g., Ethereum, Hyperledger) • Setting up a development environment (Ethereum, Solidity, Truffle) • Basics of writing smart contracts • Interacting with a blockchain network • Deploying and testing smart contracts

3.	Blockchain Use Cases
	<ul style="list-style-type: none"> • Real-world applications of blockchain technology • Blockchain in finance, supply chain, healthcare, and more • Evaluating the feasibility of blockchain solutions • Future trends and potential challenges
4.	Blockchain Adoption and Governance
	<ul style="list-style-type: none"> • Regulatory and legal considerations • Challenges and opportunities for blockchain adoption • Governance models for blockchain networks • Ethical implications of blockchain technology
5.	Case Studies and Practical Exercises
	<ul style="list-style-type: none"> • Analyzing and discussing real-world blockchain projects • Hands-on exercises to reinforce concepts learned throughout the course

Code: DISCIPLINED ENTREPRENEURSHIP & ETA

4Credits [LTP: 4-0-0]

COURSE OUTCOMES: After Successful completion of the course students will be able to-

CO1	Develop a solid understanding of the principles and processes of disciplined entrepreneurship
CO2	Enhance critical thinking and problem-solving skills in the context of entrepreneurship
CO3	Foster a mindset of experimentation and iteration
CO4	Cultivate effective communication and teamwork skills for entrepreneurship
CO5	Empower students to develop a comprehensive entrepreneurial action plan

OUTLINE OF THE COURSE

Unit No.	Title of the unit	Time required for the Unit (Hours)
1.	Introduction to Disciplined Entrepreneurship and ETA	8
2.	Market Segmentation, Customer Validation and product market fit	9
3.	Prototyping and Minimum Viable Product (MVP)	15
4.	Talent Acquisition, Talent Development, Team Building and Retention	15
5.	Go to market and entry	15

DETAILED SYLLABUS

Unit	Unit Details
1.	Introduction to Disciplined Entrepreneurship and ETA
	<ul style="list-style-type: none"> ● Overview of disciplined entrepreneurship methodologies and principles ● Importance of execution, talent, and accountability in startup ventures ● Mindset and qualities of successful entrepreneurs ● Identifying and evaluating business opportunities ● Idea generation techniques and frameworks ● Evaluating market potential and customer needs
2.	Market Segmentation, Customer Validation and product market fit
	<ul style="list-style-type: none"> ● Conducting market research and segmentation ● Validating customer needs and preferences ● Creating value propositions and customer personas ● Defining the product/market fit ● Developing a business model canvas ● Aligning value proposition, customer segment, and revenue streams
3.	Prototyping and Minimum Viable Product (MVP)
	<ul style="list-style-type: none"> ● Principles of rapid prototyping and MVP development ● Testing assumptions and gathering customer feedback ● Iterative product development and refinement ● Strategy and Execution Planning ● Setting strategic goals and objectives ● Creating execution plans and roadmaps ● Prioritizing tasks and resource allocation

4.	Talent Acquisition, Talent Development, Team Building and Retention
	<ul style="list-style-type: none"> Identifying and attracting top talent Building a diverse and high-performing team Effective team communication and collaboration Developing talent development programs and strategies Employee training and skill enhancement Building a culture of learning and growth
5.	Go to market and entry

DETAILED SYLLABUS FOR FOURTH SEMESTER

Code: BBSCFR4101 International Entrepreneurship and Global Business Environment 4Credits [LTP: 4-0-0]

COURSE OUTCOMES: After Successful completion of the course students will be able to-

CO1: Understand the global environment in commerce

CO2: Know the global Investment environment

CO3: Learn the foreign market entry strategies

CO4: Determine what constitutes a valid entrepreneurial opportunity.

CO5: Effectively carry out managerial functions in a multicultural environment

A. OUTLINE OF THE COURSE

Unit	Title of the unit	Time Required for the Unit (Hours)
1	International Entrepreneurship	10
2	Foreign market entry strategies	15
3	Global Trading and Investment Environment	10
4	Regional Economic Integration and Economic Institutions	15
5	Theories on International Trade	10

B. DETAILED SYLLABUS

Unit	Unit Details
1	International Entrepreneurship
	<ul style="list-style-type: none"> • An Overview; Importance, nature, and Scope • Management of international entrepreneurship operations – complexities and issues; IT and international entrepreneurship • Domestic versus International Entrepreneurship; International Entrepreneurship Environment- Components and Determinants • Stages of internationalization of entrepreneurship; International entrepreneurship approaches, the concept of globalization • Modes of Entering into international entrepreneurship
2	Foreign market entry strategies
	<ul style="list-style-type: none"> • Country evaluation and selection • Factors affecting foreign investment decisions; the impact of FDI on home and host countries • Types and motives for foreign collaboration; control mechanisms in international entrepreneurship • India's FDI policy • Foreign exchange; Balance of payments • Trade barriers: tariff and non-tariff barriers, optimal tariff; Exchange rate determination
3	Global Trading and Investment Environment
	<ul style="list-style-type: none"> • Classical and modern theories of international trade • World Trade in Goods and Services –Major Trends and Developments • World trade and protectionism –Tariff and non-tariff barriers • Government Intervention in international trade • India's foreign trade policy
4	Regional Economic Integration and Economic Institutions
	<ul style="list-style-type: none"> • Levels of Regional Economic Integration; • Trade Creation and diversion effects; • Regional Trade Agreements: European Union (EU), ASEAN, SAARC, NAFTA, • International Economic Institutions: IMF, World Bank, UNCTAD World Trade Organisation (WTO): Functions and objectives of WTO; • Agriculture Agreement; GATS; TRIPS; TRIMS, Corporate social responsibility (CSR) ; • Theory of customs union: Partial and General Equilibrium Analysis;

	<ul style="list-style-type: none"> Emerging markets
5	Theories on International Trade
	<ul style="list-style-type: none"> Classical and modern theories of international trade Modes of entry into International Business: Exporting, Licensing, Franchising, Contract Manufacturing, Trunkey projects, Foreign Direct Investments and Joint Ventures

COs AND PSOs MAPPING

COs and PSOs	PSO1	PSO2	PSO3	PSO4	PSO5
CO.1	2	1	0	1	2
CO.2	1	1	0	1	0
CO.3	2	2	1	2	1
CO.4	3	2	1	1	1
CO.5	1	1	3	1	1

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOMES: After Successful completion of the course students will be able to-

CO1	Develop proficiency in mobile app development for various platforms using the latest technologies.
CO2	Gain hands-on experience in building user-friendly and responsive mobile applications.
CO3	Acquire knowledge of the latest trends and best practices in app development, including cloud integration and data synchronization.
CO4	Understand the fundamentals of UI/UX design and apply them to create visually appealing and intuitive mobile interfaces.
CO5	Demonstrate the ability to effectively debug, test, and deploy mobile applications across different devices and operating systems.

A. OUTLINE OF THE COURSE

Unit	Title of the unit	Time Required for the Unit (Hours)
1	Introduction to No Code Development Approach	10
2	Getting Started with No Code Platform	15
3	Backend of the application	15
4	How to publish an application	10
5	Latest tools & technologies	10

A. DETAILED SYLLABUS

Unit	Unit Details
1	Introduction to no code app development approach
	<ul style="list-style-type: none"> • What is no code app development? • Benefits of no code approach. • Difference between code vs no code. • Examples of existing brands using no code approach • Platforms to develop no code apps
2	Getting Started with No Code app development approach
	<ul style="list-style-type: none"> • How to create an account on no code platforms • Introduction to bubble platform • Introduction to Adalo platform • Introduction to App Sheet platform • Introduction to webflow platform
3	Backend of the application
	<ul style="list-style-type: none"> • What is Database? • Type of databases. • Structure of database. • Tables, row, columns & cells • How to connect UI with database
4	How to Publish an Application
	<ul style="list-style-type: none"> • How to connect google analytics with your app • Requirements to publish application. • Various platform to publish application • How to publish Playstore.

	<ul style="list-style-type: none"> How to publish on app store.
5	Latest tools & technologies
	<ul style="list-style-type: none"> How to use AI tools How to find resources How to scale technology How to do customer automation

CO.1	2	0	2	0	1	1	1	0	0
CO.2	2	0	3	2	0	0	0	0	0
CO.3	0	1	1	0	2	2	0	0	0
CO.4	2	2	3	0	0	0	0	0	0
CO.5	0	0	3	0	2	2	0	0	0

COs AND PSOs MAPPING

COs and PSOs	PSO1	PSO2	PSO3	PSO4	PSO5
CO.1	3	0	0	0	0
CO.2	0	0	2	2	0
CO.3	2	0	2	0	0
CO.4	2	1	1	2	1
CO.5	1	1	2	1	0

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOMES:

The student would be able to:

C01: Develop effective communication skills: Students will enhance their ability to express ideas clearly and persuasively, using appropriate verbal and non-verbal techniques.

C02: Analyze and evaluate arguments: Students will learn to critically assess different perspectives, identify logical fallacies, and construct well-reasoned arguments.

C03: Enhance research and information literacy skills: Students will acquire the ability to gather relevant evidence, evaluate sources, and incorporate supporting materials into their speeches.

C04: Foster critical thinking and problem-solving abilities: Students will develop skills in analyzing complex issues, formulating coherent arguments, and responding to counter arguments.

C05: Build confidence and overcome public speaking anxiety: Students will gain self-assurance in delivering speeches, managing nervousness, and engaging with diverse audiences.

A. OUTLINE OF THE COURSE

Unit No.	Title of the Unit	Time Required for the Unit (Hours)
1	Introduction to Public Speaking and Preparing Your Speech	3
2	Delivery Techniques and Persuasive Speaking	4
3	Impromptu Speaking and Introduction to Debating	3
4	Constructing Arguments and Rebuttal and Cross-Examination	2
5	Debate Practice and Conclusion and Final Presentations	3

B. DETAILED SYLLABUS

Unit	Title of the Unit
1.	Introduction to Public Speaking and Preparing Your Speech
	<ul style="list-style-type: none"> • Overview of the course and its objectives. • Understanding the importance of public speaking and debate skills. • Introduction to effective communication strategies. • Introduction to the art of persuasion. • Selecting and analyzing a topic. • Conducting research and gathering evidence. • Organizing your speech with a clear introduction, body, and conclusion. • Understanding different speech structures and formats.
2.	Delivery Techniques and Persuasive Speaking
	<ul style="list-style-type: none"> • Enhancing vocal skills (projection, intonation, pace, etc.). • Body language and non-verbal communication. • Using visual aids effectively. • Managing stage fright and nervousness. • Identifying persuasive techniques and rhetorical devices. • Developing logical arguments and appeals. • Understanding the target audience and adapting the speech accordingly. • Practicing persuasive delivery.
3.	Impromptu Speaking and Introduction to Debating
	<ul style="list-style-type: none"> • Strategies for impromptu speaking. • Developing quick thinking and improvisation skills. • Structuring impromptu speeches effectively. • Practice sessions with impromptu topics.

	<ul style="list-style-type: none"> • Overview of the debate format and structure. • Understanding the roles of different participants. • Analyzing and evaluating arguments
4.	Constructing Arguments and Rebuttal and Cross-Examination
	<ul style="list-style-type: none"> • Identifying and formulating strong arguments. • Using evidence and examples to support your points. • Developing logical and coherent argumentation. • Counter-arguments and refutation techniques. • Effective rebuttal techniques. • Strategies for countering opponents' arguments. • Cross-examination skills and tactics. • Practice sessions for rebuttal and cross-examination.
5.	Debate Practice and Conclusion and Final Presentations
	<ul style="list-style-type: none"> • Conducting mock debates. • Applying the learned techniques in real debate scenarios. • Receiving constructive feedback and analysis. • Recap of key concepts and techniques. • Final presentations by participants. • Peer evaluation and feedback.

CO.5	0	3	2	1	0

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOMES:

The student would be able to:

C01: Develop a solid understanding of data analysis concepts, methodologies, and tools, enabling them to manipulate, clean, and preprocess data effectively.

C02: acquire knowledge and skills in applying statistical techniques to analyze datasets, interpret results, and draw meaningful conclusions.

C03: create informative and visually appealing data visualizations using various tools and techniques to communicate insights effectively.

C04: grasp the fundamentals of machine learning algorithms and their application in solving data analysis problems and making predictions.

C05: gain practical experience in tackling real-world data analysis challenges, working with datasets from different domains and applying appropriate analytical techniques.

A. OUTLINE OF THE COURSE

Unit No.	Title of the Unit	Time Required for the Unit (Hours)
1	Introduction to Data Analysis	7
2	Data Preprocessing and Cleaning	6
3	Exploratory Data Analysis	6
4	Statistical Analysis	7
5	Introduction to Machine Learning	4

B. DETAILED SYLLABUS

Unit	Title of the Unit
1.	Introduction to Data Analysis
	<ul style="list-style-type: none"> Overview of data analysis process Data types and sources Introduction to data analysis tools (e.g., Python, R, Excel)
2.	Data Preprocessing and Cleaning
	<ul style="list-style-type: none"> Data cleaning techniques Handling missing data Data transformation and normalization
3.	Exploratory Data Analysis
	<ul style="list-style-type: none"> Descriptive statistics Data visualization using Matplotlib and Seaborn Identifying patterns and outliers
4.	Statistical Analysis
	<ul style="list-style-type: none"> Hypothesis testing t-tests, ANOVA, and chi-square tests Correlation and regression analysis
5.	Introduction to Machine Learning
	<ul style="list-style-type: none"> Supervised vs. unsupervised learning Linear regression Classification algorithms (e.g., Decision Trees, Random Forests)

DETAILED SYLLABUS FOR FIFTH SEMESTER

Code: BBSCFR5101

STARTUP FUNDING AND VALUATIONS

4 Credits [LTP: 4-0-0]

COURSE OUTCOMES: After Successful completion of the course students will be able to-

CO1	Provide a legal advice that gives an overview of the main issues facing a startup and gives suitable emphasis to the most relevant issues.
CO2	Demonstrate an ability to prepare in-depth, practical and detailed advice within a specific practice area.
CO3	Show an understanding of a specific practice area and demonstrate an ability to educate clients, with an understanding of the level of legal knowledge of most startup entrepreneurs and the fast-paced commercial environment of startups.
CO4	Developing critical thinking skills as to devise strategic solutions for some of the most common legal challenges faced by tech-based startups.
CO5	Understanding common legal challenges facing tech-based startups from the perspective of a founder or in-house counsel, developing a deep business knowledge with this broad context.

A. OUTLINE OF THE COURSE

Unit	Title of the unit	Time Required for the Unit (Hours)
1	Introduction to Startup Funding and Valuation	15
2	Source and stages of startup funding	15
3	Traditional Funding Sources	10
4	Venture Capital (VC) Funding	10
5	Valuation Methods for Startups	10

B. DETAILED SYLLABUS

Unit	Unit Details
1	Introduction to Startup Funding and Valuation
	<ul style="list-style-type: none"> • Overview of the startup financing ecosystem • The role of funding in startup growth and scalability • Introduction to startup valuation concepts • Funding Lifecycle and Stages • Funding stages: pre-seed, seed, series A, B, C, and beyond • Key characteristics and expectations of different funding stages • Challenges and opportunities at each funding stage
2	Source and stages of startup funding
	<ul style="list-style-type: none"> • Common funding challenges faced by startups • Techniques for self-funding a startup • Strategies for managing limited resources • Navigating potential challenges and risks • Various stages and process steps of startup funding
3	Traditional Funding Sources
	<ul style="list-style-type: none"> • Bootstrapping and self-funding • Friends and family funding • Bank loans and traditional financial institutions • Angel Investing and Angel Networks • Role and characteristics of angel investors

	<ul style="list-style-type: none"> • Angel networks and syndicates • Angel investment process and considerations
4	Venture Capital (VC) Funding
	<ul style="list-style-type: none"> • Overview of venture capital funding • VC funding process and deal structures • Understanding the motivations and expectations of VCs • Crowdfunding and Types of crowdfunding • Crowdfunding platforms and regulations • Utilizing alternative funding platforms • Role of corporate venture capital in startup funding • Establishing strategic partnerships for funding and growth • Benefits and challenges of CVC investments
5	Valuation Methods for Startups
	<ul style="list-style-type: none"> • Common valuation methods: discounted cash flow (DCF), comparable transactions, market multiples • Valuation considerations for early-stage startups • Evaluating valuation models and factors influencing startup valuations • Financial Modeling for Startups • Financial projections and forecasting • Building a startup financial model • Assessing and communicating financial viability to investors • Pitching and Investor Presentations • Crafting an effective investor pitch deck • Pitching techniques and storytelling for startups • Addressing investor concerns and objections

CO.5	3	3	2	2	1

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOMES: After Successful completion of the course students will be able to-

CO1	Understand the fundamental principles and legal frameworks of patents, copyrights, trademarks, and startup policies.
CO2	Gain knowledge of the patent application process and learn how to draft and file patent applications effectively.
CO3	Comprehend the significance of copyright law in protecting creative works and learn how to manage copyright issues in a startup.
CO4	Explore the role of trademarks in brand protection and develop strategies for trademark registration and enforcement.
CO5	Examine the legal and policy considerations relevant to startups, including privacy, data protection, and regulatory compliance.

A. OUTLINE OF THE COURSE

Unit	Title of the unit	Time Required for the Unit (Hours)
1	Introduction to Startup Law and Regulations	15
2	Intellectual Property (IP) Protection	10
3	Employment Law and Human Resources	15
4	Fundraising and Securities Regulations	10
5	Patent, Trademarks & Startup Policies	15

B. DETAILED SYLLABUS

Unit	Unit Details
1.	Introduction to Startup Law and Regulations
	<ul style="list-style-type: none"> • Overview of the legal landscape for startup • Importance of legal compliance and risk management • Legal considerations at different stages of startup development.
2.	Intellectual Property (IP) Protection
	<ul style="list-style-type: none"> • Types of intellectual property: patents, trademarks, copyrights, trade secrets • IP ownership, licensing, and enforcement • Strategies for protecting IP assets in startups • Choosing the Right Corporate Structure • Legal forms of business entities for startups (e.g., sole proprietorship, partnership, corporation, LLC) • Pros and cons of different corporate structures • Incorporation process, bylaws, and shareholder agreements
3.	Employment Law and Human Resources
	<ul style="list-style-type: none"> • Employment relationships and classifications • Hiring and onboarding practices • Employee benefits, equity compensation, and vesting schedules • Contracts and Agreements • Contract law fundamentals • Drafting and negotiating key contracts for startups (e.g., client agreements, vendor contracts, non-disclosure agreements) • Contract management and dispute resolution
4.	Fundraising and Securities Regulations

	<ul style="list-style-type: none"> ● Fundraising options for startups (e.g., angel investors, venture capital, crowdfunding) ● Securities regulations and compliance (e.g., SEC regulations, private placements) ● Due diligence, term sheets, and investor agreements ● Regulatory Compliance and Data Privacy ● Overview of industry-specific regulations (e.g., healthcare, fintech, e-commerce) ● Data privacy laws and compliance (e.g., GDPR, CCPA) ● Managing regulatory risks and implementing compliance programs
4.	Patent, Trademarks & Startup Policies
	<ul style="list-style-type: none"> ● Understanding patentable subject matter ● Patent eligibility requirements ● Understanding trademark rights and protection ● Distinctiveness and trademark registration ● Startup policies

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOMES:

The student would be able to:

C01: Demonstrate a fundamental understanding of the principles of photography, including composition, lighting, exposure, and camera settings.

C02: Apply various techniques for capturing compelling and visually appealing photographs in different settings and conditions.

C03: Utilize image editing software proficiently to enhance, retouch, and manipulate photographs effectively.

C04: Analyze and critique photographs and images with an understanding of visual aesthetics and storytelling elements.

C05: Create a portfolio of edited photographs that showcase technical skills and creative vision in photography and image editing.

A. OUTLINE OF THE COURSE

Unit No.	Title of the Unit	Time Required for the Unit (Hours)
1	Introduction to Video Editing and Video Editing Software Basics	9
2	Video Transitions and Effects And Color Correction and Grading	9
3	Audio Editing & Mixing and Advanced Video Editing Techniques	9
4	Introduction to Image Editing and Image Editing Software Basics	9
5	Image Retouching and Enhancement & Advanced Image Editing Techniques	9

B. DETAILED SYLLABUS

Unit	Title of the Unit
1.	Introduction to Video Editing and Video Editing Software Basics
	<ul style="list-style-type: none"> Understanding the basics of video editing Exploring different video editing software options Navigating the video editing interface and tools Introduction to video file formats and resolutions Getting started with a popular video editing software (e.g., Adobe Premiere Pro, Final Cut Pro, DaVinci Resolve) Importing video footage and organizing media files Basic video editing techniques (trimming, splitting, merging) Adding and adjusting audio tracks in video projects
2.	Video Transitions and Effects and Color Correction and Grading
	<ul style="list-style-type: none"> Utilizing video transitions to enhance visual continuity Applying video effects for creative enhancements Adding text overlays and lower thirds in videos Exploring keyframe animation for advanced effects Understanding the basics of color correction and grading Adjusting exposure, contrast, and color balance Applying color grading techniques for visual aesthetics Utilizing color presets and LUTs (Look-Up Tables)

3.	Audio Editing & Mixing and Advanced Video Editing Techniques
	<ul style="list-style-type: none"> Working with audio tracks and editing audio clips Applying audio effects (equalization, noise reduction, audio levelling) Mixing multiple audio tracks for balanced sound Syncing audio and video elements in the editing process Utilizing advanced video editing features (multicam editing, nested sequences) Incorporating green screen (chroma key) techniques Adding visual effects and motion graphics to videos Time-remapping and speed adjustment techniques
4.	Introduction to Image Editing and Image Editing Software Basics
	<ul style="list-style-type: none"> Understanding the basics of image editing Exploring different image editing software options Navigating the image editing interface and tools Introduction to image file formats and resolutions Getting started with a popular image editing software (e.g., Adobe Photoshop, GIMP) Importing and organizing image files Basic image editing techniques (cropping, resizing, rotating) Adjusting brightness, contrast, and color levels in images
5.	Image Retouching and Enhancement & Advanced Image Editing Techniques
	<ul style="list-style-type: none"> Utilizing retouching tools for skin and blemish correction Removing unwanted objects and distractions from images Enhancing image details and sharpness Applying filters and artistic effects to images Utilizing advanced image editing features (layers, masks, blending modes) Creating composites and collages from multiple images Incorporating text and typography in image designs Introduction to non-destructive editing techniques

Note: On the basis of mapping of COs with POs, this course is related to Employability / Skill Development

COURSE OUTCOMES:

The student would be able to:

C01: Understand the fundamental principles of food science and its relevance in various aspects of the food industry.

C02: Analyze the chemical composition and nutritional value of different food components.

C03: Explain the various physical and chemical processes involved in food preparation, preservation, and storage.

C04: Apply scientific methods to evaluate the quality and safety of food products.

C05: Critically examine emerging trends and advancements in the field of food science and technology.

A. OUTLINE OF THE COURSE

Unit No.	Title of the Unit	Time Required for the Unit (Hours)
1	Food Combinations and Flavor Pairing	3
2	Cooking Methods and Techniques	3
3	Food Texture and Structure	3
4	Culinary Innovation and Food Science Applications	3
5	Food Safety and Quality Control	3

B. DETAILED SYLLABUS

Unit	Title of the Unit
1.	Food Combinations and Flavor Pairing
	<ul style="list-style-type: none"> Exploring the science behind food pairing and flavor combinations Understanding taste receptors and the five basic tastes (sweet, sour, salty, bitter, umami) Analyzing the principles of flavor profiles and how they interact Studying complementary and contrasting flavor combinations in various cuisines Exploring the concept of molecular gastronomy and its impact on food combinations
2.	Cooking Methods and Techniques
	<ul style="list-style-type: none"> Introduction to different cooking methods, including dry heat, moist heat, and combination methods Understanding the effects of heat on food and the principles of heat transfer Exploring the science behind techniques such as baking, roasting, grilling, sautéing, boiling, steaming, and sous vide Analyzing the impact of cooking methods on nutritional content and sensory characteristics of food Understanding the importance of temperature control and proper cooking techniques for food safety
3.	Food Texture and Structure
	<ul style="list-style-type: none"> Understanding the role of food texture in sensory perception and palatability Studying the science behind texture-modifying techniques such as emulsification, gelation, foaming, and thickening Exploring the role of ingredients such as starches, proteins, and fats in texture development Analyzing the impact of cooking methods and processing on food texture and structure Investigating the science behind food structure and its influence on mouthfeel and eating experience
4.	Culinary Innovation and Food Science Application
	<ul style="list-style-type: none"> Exploring emerging trends in culinary innovation and the role of food science

	<ul style="list-style-type: none"> Investigating food science applications in areas such as molecular gastronomy, food technology, and food product development Analyzing the impact of food processing techniques on nutrition, flavor, and quality Understanding the science behind food preservation methods and techniques Exploring the future of food science and its role in addressing global food challenges
5.	Food Safety and Quality Control
	<ul style="list-style-type: none"> Foodborne illnesses and their prevention Principles of quality control and assurance in food production

DETAILED SYLLABUS FOR SIXTH SEMESTER

Code: BBS CFR6101 ENTREPRENEURIAL FAMILIES 4 Credits [LTP: 4-0-0]

COURSE OUTCOMES: After Successful completion of the course students will be able to

CO1	Understand the dynamics and characteristics of entrepreneurial families, including their unique challenges and opportunities.
CO2	Explore the process of entrepreneurship within the context of family systems, examining the interplay between family dynamics and business ventures.
CO3	Develop strategies for effective communication and conflict resolution within entrepreneurial families to foster positive relationships and successful business outcomes.
CO4	Analyze the impact of succession planning and intergenerational transitions on entrepreneurial families, identifying best practices for ensuring long-term business continuity.
CO5	Investigate the role of innovation and adaptability in entrepreneurial families, exploring how to foster entrepreneurial mindset and encourage entrepreneurial activities across generations.

A. OUTLINE OF THE COURSE

Unit	Title of the unit	Time Required for the Unit (Hours)
1	Introduction to Family Business	12
2	Ownership Challenges and Family Governance	10
3	Successor Development	10
4	Strategic Planning and Transgenerational Entrepreneurship	15
5	The Future of Family Business	13

B. DETAILED SYLLABUS

Unit	Unit Details
1	Introduction to Family Business Family Business as a unique synthesis- Succession and Continuity: The three generation rule- Building Family business that last- The systems theory model of Family Business - Agency Theory of Family business - The stewardship perspective of family business - Competitive Challenges and Competitive advantages of family businesses- The role of Genograms and family messages to understand the family system. Family emotional intelligence - The ECI-U Model.
2	Ownership Challenges and Family Governance Shareholder Priorities – Managers vs Owners - Responsibilities of shareholders to the company - Effective Governance of the shareholder - firm relationship – Family Governance: Structure, Challenges to family governance, Managing the challenges of succession. Enterprise Sustainability: Twelve elements of strategic –fit and its implications on family firms.
3	Successor Development Characteristics of next-generation leaders - Next-generation attributes interests and abilities for responsible leadership- Next-generation personalities managing interdependence- CEO as an architect of succession and continuity - Types of CEO Spouse and the transfer of power.
4	Strategic Planning and Transgenerational Entrepreneurship Life cycle stages influencing family business strategy - Turning core competencies into competitive advantage – The unique vision of family-controlled businesses - Strategic regeneration- The Business Rejuvenation matrix - Intrapreneurship.
5	The Future of Family Business

	New Leaders of the Evolution - Three states of evolution - Continuity and culture - changing the culture - The change formula - Organization Development approaches to change - Commitment planning - Organic competencies and business's future - Thriving through competition - Institutionalizing the change
